How Do You Sleep At Night

Nural

We work in secret
Waiting 'til the time is right and no one's around
I swear we mean well, all you do is sign the line before we begin
You have my word he won't feel a thingI know you love him
But don't get too attached, it's wrong, you gave him a name
The time is nearing
Second thoughts are natural but soon you'll give in
Go home tonight and sleep on itBut how do you sleep at night?
Do you toss and turn and pray for morning?
What if it never came?
And how do you sleep at night?
Do you toss and turn and pray for morning?
What if it never came?You said you'll kill him
I should have known you'd lack the spine
So thank God for mine
Just close your eyes and don't wakeBut how do you sleep at night?
Do you toss and turn and pray for morning?
What if it never came?
And how do you sleep at night?
Do you toss and turn and pray for morning?
What if it never came?
CameWaiting for the tide to rise
And wash them away
Deep into a watery grave
Ah, ah, ah, ohBut how do you sleep at night?
Do you toss and turn and pray for morning?
What if it never came?
And how do you sleep at night?
Do you toss and turn and pray for morning?
What if it never came?And how do you sleep at night?
Do you toss and turn and pray for morning?
What if it never came, oh, oh?And how do you sleep at night?
Do you toss and turn and pray for morning?
What if it never came, hey, yeah?And how do you sleep at night?
Do you toss and turn and pray for morning?
Do you pray for morning?
Pray for morningAnd how do you sleep at night?
Do you toss and turn and pray for morning?
What if it never came, yeah?And how do you sleep at night?

Do you toss and turn and pray for morning?
(6x)
