

# Right Here's The Spot

## Basement Jaxx

I hit you with a lick a thang  
Love to feel your body move like this  
    Rub me down  
    C'mon work that body  
I hit you with a lick a thang  
Love to feel your body move like this  
    I wanna make u dance  
    And feel my effect yeah  
    Drop your guard, let's jam  
    Right here's the spot  
    (Move your body)  
We got this thing right here  
    Right here's the spot  
    (T'm gonna get to you)  
    Drop your guard right here  
    Right here's the spot  
(Touch your body and feel my effect)  
    We got this thing right here  
    Right here's the spot  
    (It's electrifying, right here)  
    Right here's the spot  
    'Cause I fancy you  
    Feel my effect  
    Right here right here's the spot  
    I hit you with a lick a thang  
Love to feel your body move like this  
    Touch ya body  
    And feel the desire  
    I hit you with a lick a thang  
    Rub, rub ya body  
    'Cos you can call me up  
    And we can get down  
    Drop your guard let's jam  
    Right here's the spot  
    (Move your body)  
We got this thing right here  
    Right here's the spot  
    (Drop it)  
    (I'm wanna get to you)

Drop your guard let's jam  
Right here's the spot  
(Touch ya body)  
(And feel my effect yeah)  
We got this thing right here  
Right here's the spot  
(It's electrifying)  
Right here, right here's the spot  
Right here  
Right here's the spot  
Right here  
Right here's the spot  
Delirious  
Delirious  
Delirious

I know you fancy me I fancy you  
I know you fancy me I fancy you babe, c'mon  
I'm gonna make you dance  
I wanna move you  
I'm wanna make you dance  
I m gonna get to you  
I'm gonna make you dance  
It's all about anything, everything  
I'm gonna get you  
Dance if you want to  
But if you don't make you're own way home  
Dance if you want to  
But if you don't make you're own way home  
Say chant  
Delirious, delirious  
Delirious  
{All you people  
Let me hear you make some noise}

Drop your guard let's jam  
Right here's the spot  
(Move your body)  
We got this thing right here  
Right here's the spot  
(Drop it)  
(I'm wanna get to you)  
Drop your guard let's jam  
Right here's the spot  
(Touch ya body)  
(And feel my effect yeah)  
We got this thing right here

Right here's the spot  
(It's electrifying)  
Right here, right here's the spot  
Right here's the spot  
Right here's the spot  
Delirious  
Right here's the spot  
Right here's the spot  
Delirious
