

# Litter Box

## Meat Puppets

we're all in the gutter but I'm  
looking the rats and  
when I'm hungry I don't fuck around  
and I'm not afraid to strew around  
my scraps  
here's a rat carcass for your front lawn  
your personal possessions I don't give a darn  
maybe you can keep it to keep warm  
don't blame me for what goes out my window  
I know it was out there in the first place  
and besides, I did it for our own good
