

# I Believe in You (Radio Edit)

## Galisteo

Shadows in your eyes  
Lost dreams, empty lies  
Fooling yourself  
Just waiting for a sign No fear no turning back  
This time you'll do it right  
You hold the light, yes,  
I believe in you The pain have made you stronger  
look up, the rain is over  
You can only make it better I know, cause I believe in you  
I believe in you  
I believe in you  
I believe in you  
I believe in you  
I know where you belong  
Now you never felt so strong  
Don't you give up  
cause you are not alone No fear no turning back  
This time you'll do it right  
You hold the light, yes,  
I believe in you The pain have made you stronger  
look up, the rain is over  
You can only make it better I know, cause I believe in you  
I believe in you  
I believe in you  
I believe in you  
I believe in you  
Waiting for a sign  
Lighting up the sky  
I'll be by your side I believe in you
