Alone Forever

C21

I can't believe
I'm holding on to everything you said
When you don't say it anymoreSo many people told me
But I couldn't breath
Just look at me now
I can't believe
I never knew that at allIt's so hard
To realize why you always do this
To me, yeahIf you don't open up your heart
You don't wanna know
How to get me back inside
You don't know
"cause everytime I try
You always keep me waiting
all alone - foreverI close my eyes
To drift away, leave it all behind
What I see is just the sameMaybe if I hold you
So much to say
But where do I start
I can't believe
That I never knew that at allIts so hard
To realize why you always do this
To me, yeah
