

Don't Come Back

IreneB

INTRO

Nah, son, how you gonna play me like that?

You buggin

See uhm, what I believe is

Once a cheater, always a cheater

I gave you every part of me

Anything a man could ever want and need

You're played out boy and your game is wack

So go on kick the curb and baby, don't come back!

You're creeping downtown with another girl

And you think that I don't know

Well, I'ma kick it to you, let me rock your world

You can take your stuff and go

I don't have the time to play boy

Go on pack your bags

Go ahead, be on your way boy

And don't ever come back!

You're flaunting her around when I'm at home alone

And you think that's gonna work

So just in case you say I never told you so

That's no way to treat your girl

I don't have the time for games boy

School days have come and gone

If playing hearts is what you ace boy

Let me tell you you're dead wrong

You've overstayed your welcome

I've gone and lost my cool

I can't believe I let you go

And treat me like a fool

It's time you learn your lesson

Missing me while you're away

So out there where you came from you can stay, baby!

You're played out boy (x2)

You're played out boy and your game is wack

So go on kick the curb and baby, don't come back!
