

Not Sick

Tokyo Police Club

Get comfortable, get unfustrated
Get healthy, and all the things that you want

I do, I do, I do not

Fuck with the sure shot

Not serious, about the way that you are

Carolina, happy belated

Always golden, still the greatest

Not sensible, I wanna marry a dancer

Vegetarian, can't stand to be wrong

I do, I do, I do not

Fuck with the sure shot

Not serious or taken seriously

Oh Carolina, happy belated

Always golden, still the greatest

'cause it's there on the tip of your tongue,

On the back of your hand,

In the place that you had it last,

You need to be careful

All in a single night,

In a single dose,

Is the best of the best for me,

So what do you need, what do you need, what do you need?

Is it a call for an emergency?

So what is it like

For your song on karaoke night?

Oh Carolina, happy belated

Always golden, still the greatest
