

Ignorance

Sacred Reich

Evil minds bend on destruction
Ignoring the pleas of their race
Final chapter in humanic abduction
All signs of society erased
People asking fewer questions
Letting politicians do their thinking
Not questioning nuclear judgment
As warheads enter our space
Our atmosphere clouded with poison
Killing ourselves to live
Filling the world with hate and dissention
We'll have only our lives to give
What we do now is the key to the future
Have only ourselves to blame
For arming the world with the tools of destruction
Our ignorance means death
Warring on opposite nations
Starvation amongst impoverished nations
Outlook bleak for the world residue
Ignorance of mankind
Clouding the world with residue
Of man's toxic industry
Slowly killing nameless victims
Whose ignorance leaves them dead
Our atmosphere clouded with poison
We're killing ourselves to live
Filling the world with hate and dissention
We'll have only our lives to give
What we do now is the key to the future
We'll only have ourselves to blame
For arming the world with the tools of destruction
Our ignorance means death
We're crowded with anger
Inventions of danger
From man's diabolical mind
Humanities dying
No use in trying
It's only a matter of time
How long will it be before there's no air to breathe
And our water is polluted water
Ignorance runs rampant
No one is caring
Suicide of the human race
Ignorance
