

Space Oddity

Cold

Ground control to major tom
Ground control to major tom
Take your protein pills and put your helmet on (ten, nine)
Ground control to major tom (eight, seven, six)
Commencing countdown (five) engines on (four, three, two)
Check ignition (one) and may god's love be with you (lift off)
This is ground control to major tom, you've really made the grade
And the papers want to know who shot you where
Now it's time to leave the capsule if you dare
This is major tom to ground control, I'm stepping' through the door
And I'm floating in the most peculiar way, and the stars look very different today
For here, am I sitting in a tin can
Far above the world
Planet earth is blue, and there's nothing I can do
Though I've pasted one-hundred thousand miles, I'm feeling very still
And I think my spaceship knows which way to go
Tell my wife I love her very much, she knows
Ground control to major tom
Your circuit's dead, there's something wrong
Can you hear me major tom?
Can you hear me major tom?
Can you hear me major tom? ...
