

Compromise

Joe

(Verse)

Giving up control

Its clear that its something you just dont know you can do

Im the same way too

Wont let me in the backseat

Cause I know for sure that its on me

To let you drive it just dont feel right

Oh yea(Pre-Chorus)

Too many hows, too many feelings

Shouldnt be easy just to say Im not changing

Im walking away

Uh maybe its time we(Chorus)

Compromise

Lets chop it up and get to a solution

Aint no need to take it there

Its called a compromise

Make a love play 60 for the resolution

We gotta have to make some compromises, ladyUh its called a compromise (compromise)

Its called a compromise (compromise)

Oh oh oh, go(Verse)

Setting up your defense, playing it so damn hard to get

Thats your let down

Can nobody hurt you now

I had em all chick after chick

And I let em go and then say I commit

You couldnt tell me (tell me)

Just what I was missing(Pre-Chorus)

Too many hows, too many feelings

Shouldnt be easy just to say Im not changing

Im walking away

Uh maybe its time we(Chorus x2)

Compromise

Lets chop it up and get to a solution

Aint no need to take it there

Its called a compromise

Make a love play 60 for the resolution

We gotta have to make some compromises, lady(Bridge)

I think its time we change it up

Dont you think its time we change it up?

Change it up, girl
Get through this fading life to all to all to all to all to all Compromise
Lets chop it up and get to a solution
(Lets come up with a solution, baby)
Compromise
Make a love play 60 for the resolution
Were gonna have to make some compromises, baby (Chorus x2)
Compromise
Lets chop it up and get to a solution
Aint no need to take it there
Its called a compromise
Make a love play 60 for the resolution
We gotta have to make some compromises, lady
