

# Too Young to Go Steady

[Nat King Cole](#)

Too young to go steady  
Too young, I hear her say  
She says we're not ready  
But then why am I feeling this way? Too young, so she tells me  
She says we'll have to wait  
Why wait till it may be too late? Can she realize she drives me wild?  
Is she made of stone?  
Must she always act just like a child?  
Won't she ever own up, we're grown up? Someday she'll be sorry  
Someday just wait and see  
She'll wish she'd gone steady with me Can she realize she drives me wild?  
Is she made of stone?  
Must she always act just like a child?  
Won't she ever own up, we're grown up? Someday she'll be sorry  
Someday just wait and see  
She'll wish she'd gone steady with me
