I.Y.F.L.D.

Blue Healer

On the outside he was shining
On the inside he was broke
He did his best to hide it
Youâ€™d never even know

We were just becoming friends
When he stepped off the bus
He had a ghost inside him
Invisible to us

If you feel like dancing
go on with yourself
If you feel like dancing

Falling down a flight of stairs
To make you smile
Heâ€™d get up and laugh it off
But heâ€™d know the lie

Once he said, â€œI hurt my selfâ€•
But that was never hurt
He had a ghost inside him
Stealing every word

If you feel like dancing
go on with yourself
If you feel like dancing

He was gone for a couple of days
and then he reappeared
With a dead set look on his face
Cigarettes behind his ears

We could tell that he was getting bad
But nobody said a thing
He had a ghost inside him
That he could not contain

If you feel like dancing
go on with yourself

If you feel like dancing

Standing in an orchard
While the choir sings
To find out why heâ€™d done it
Youâ€™d need a pair of wings

And even though it taught him
Just how much he was loved
He had a ghost inside him
That he had to give up

If you feel like dancing
go on with yourself
If you feel like dancing

He wouldnâ€™t want anything else

If you feel like dancing
Go on with yourself
If you feel like dancing
Go on with yourself
If you feel like dancing
Go on with yourself
If you feel like dancing

He wouldnâ€™t want anything else
