Arrhythmia

[N]egative01

You are a discretion
A digital response
We should have found the mountain tops
In case we were years from here to execute and find our way our tunnel
We found a way
To here
Ladies and gents
Ladies and gents
Ladies and gentlemen
We give to you Arrythmia
Ladies and gentlemen
We give you the light
Burning bright to you

Bright the spark says the way
Good luck
We fought so hard
To win
We found a way
To here
Ladies and gents
Ladies and gents
Ladies and gentlemen
We give to you Arrythmia
Come on and get inside
Sit back enjoy the ride
Come on and get inside
