Early Times

Poco

Early times gone to rhyme
Somebody said it was a good time
To me, it was a long, long time
Just a long timeEarly days gone to a gaze
Somebody said we'll make it crazy
And the leader passed it on
And he got lazySongs they got to slippin' and right-hand man took to trippin'
And the leader passed it on
Familiar faces I seen, similar places and I wonder
How we left some tracesCome the moon, go the sun
And I believe there's something on the run
Catching up we ran so far behind
