One Shot

Henry Rollins; Rollins Band

You're all in my ear, I hear you talkin' dirty
You wanna get me alone, but you ain't sayin' nothin' new to me
Are you sure that you can handle me? Ow
So if I put on my boots, do you think that you can rock it?
Turn it up, let it loose, boy, can you get with this minor tease?
Before I bring it to you make believe
All I need is one shot and baby you're gone
It'll have you calling non-stop, just can't leave it alone
If I give you what you need, do you really think you can handle me?
Boy, do you think that you can handle me?
Ooh, I hope you're ready, tell me that you're ready
'Cause I can't even fight it no more
'Cause baby my body's like a potion when I put this thing in motion
Guaranteed that you'll be begging for more
Boy, give me all that you got, gotta make it hot for me
Keep it coming, don't stop
I hope that you're ready, I hear what you say to me
'Cause I'm about to bring you, you think you can handle me?
All I need is one shot and baby you're gone
It'll have you calling non-stop, just can't leave it alone
If I give you what you need, do you really think you can handle me?
Boy, do you think that you can handle me?
All I need is one shot and baby you're gone

It'll have you calling non-stop, just can't leave it alone
If I give you what you need, do you really think you can handle me?
Boy, do you think that you can handle me?
So if you got what I want, and you think you ready baby
Come on and get it, come on and just get it
And if you got what I need, boy, don't keep me waiting baby
Come on and get it, come on and just get it
Boy, give me all that you got keep it hot for me, yeah
Keep it coming don't stop
I hope that you're ready, I hear what you say to me
'Cause I'm about to bring you, you think you can handle me?
All I need is one shot and baby you're gone
It'll have you calling non-stop, just can't leave it alone
If I give you what you need, do you really think you can handle me?
Boy, do you think that you can handle me

All I need is one shot and baby you're gone
It'll have you calling non-stop, just can't leave it alone
If I give you what you need, do you really think you can handle me?
Boy, do you think that you can handle me?
One shot
One shot
One shot
