Love You Tomorrow

Newsboys

Weve walked along a sandy beach
Ive talked Youve listened
Sometimes we laughed
Sometimes we just enjoyed each otherI dont know why You love me
I just know its there
Father, Father I have longed
To know Your wayFor You have seen me
With emptiness behind my eyes
And You will look for me
And long to hear me say'Cause Ill love You tomorrow
More than today
A love that grows stronger
In a very special wayAnd when the sands grew deep
You carried me to higher ground
And wed rejoice and share the love
That we have deep insideYou wont leave me, I wont lose You
For our love is never blind
For there is nothing in this world
That can give me what You canFor You have seen me
With emptiness behind my eyes
And You will look for me
And long to hear me say'Cause Ill love You tomorrow
More than today
A love that grows stronger
In a very special way
