

# Smile

## Was (Not Was)

Keep your distance  
I haven't got a thing to say  
Where's the exit?  
What time is it anyway?  
You said there was gonna be a party  
But I don't see a thing  
Where's this happening, in your head?

Still, you better wear a smile when they watch you  
Smile like you're in control  
Smile like you mean it  
Smile, baby, you're on a roll  
Smile, smile, smile  
Smile, smile, smile

What's the matter with you people?  
Can't I even get a drink in here?  
There's something evil going on in this place  
But what it is ain't exactly clear  
Everybody's making jokes in French  
Nobody dances, nobody sweats  
But they x-ray every inch of your flesh as you walk by

And they say you gotta smile when they watch you  
Smile like you're in control  
Smile like you mean it  
Smile, baby, you're on a roll  
Smile, smile, smile  
Smile, smile, smile

Yeah, you only got to smile when they watch you  
Smile like you're in control  
Smile like you mean it  
Smile, baby, you're on a roll  
Smile, smile, smile  
Smile, smile, smile  
Smile, smile, smile
