My Mountain Is Cold

Fences

Is it anyone who would dance?
Little moment at midnight
Trying not to hide, to get down
Down on one another
Laughed as we drink up the wine
Drove all night to Canada
Knowing that we'll never get back
To see our only sun, to see our only sunIn the cold night watching the mountains burn
In the cold life we knew that I'll just love you worseIs it anyone who would ran?
Men like wild horses
Smoke spilling out of their mouths
Pouring down their nostrils
I held you as we lost control
We drove off to mountain side
Glad that we finally saw
Saw our only sun, saw our only sunIn the cold night watching the mountains burn
In the cold life we knew that I'll just love you worse
In the cold night watching the mountains burn
In the cold life we knew that I'll just love you worseFeeling mostly cold in the absence of it
Feeling mostly cold in the absence of it
Feeling mostly cold in the absence of it
Feeling mostly cold in the absence of it
Feeling mostly cold in the absence of it
Feeling mostly cold in the absence of it
Feeling mostly cold in the absence of it
Feeling mostly cold in the absence of itIn the cold night watching the mountains burn
In the cold life we knew that I'll just love you worse
In the cold night watching the mountains burn
In the cold life we knew that I'll just love you worse.
