Lights Out for Summer

Throw the Fight

the summer sun brings through the sky
the ocean air picks up and I can't help
to think that I am chanting in this paradise called hell

I close my eyes an take a bow
I feel the water rushing down
and I am sinking in this ocean
that will never know my name

lights out ! we're swinging like we've lost control
shot down ! we're hanging on until we know our dreams of summer
will be burning in the air tonight

lights out ! we're swinging like we've lost control
shot down ! we're hanging on until we know our dreams of summer
will be burning in the air tonight

the memories of you and me
like ocean sea without a grey but I can't help the feel
that everyone that I've loved had sailed away
I tried the water, taste the salt, I hear your voice as
I look down and I am drowning as the angels and
the demons run away

they run away !
don't run from me !
don't run away !

lights out ! we're swinging like we've lost control
shot down ! we're hanging on until we know our dreams of summer
will be burning in the air tonight

lights out ! we're swinging like we've lost control
shot down ! we're hanging on until we know our dreams of summer
will be burning in the air tonight

I'm sinking in this ocean and I'm waiting for your mercy,
you can't help me, you can't help me, its all over, I'm not worth it

lights out ! we're swinging like we've lost control

shot down ! we're hanging on until we know our dreams of summer
will be burning in the air tonight

lights out ! we're swinging like we've lost control
shot down ! we're hanging on until we know our dreams of summer
will be burning in the air tonight

lights out for summer !
lights out for summer !
