

Runaway

George Nozuka

Runaway, let's just runaway
Runaway, let's just runaway I'm not really with these sappy love songs
You say you're not the one for holding hands
Surrounded by so many lonely couples
And we both understand This is not our burden
We don't have to stay
We are not committed
Let me lead the way
Hearts are racing
You, I'm chasing
This is our chance
We could just runaway
We could just runaway Talking where we'll go
As long as we're together
Look into the water
See for yourself
We should just runaway
We should just getaway
We should just runaway
We should just getaway (Runaway) Everybody know that we've been flirting
So this shouldn't be too hard
This time love was supposed to be you again
So we can live our lives This is not our burden
No we don't have to stay
We are not committed
Let me lead the way (It's our chance)
Hearts are racing
You, I'm chasing
This is our chance
We should just runaway
We should just getaway
Talking where we'd go
As long as we're together
Look into the water
See for yourself
We should just runaway
We should just getaway
We should just runaway
We should just getaway Everyone's here right now

So can we getaway
Everyone's here right now
So can we getaway, runaway
Leave it all behind
I'm in love, or am I just crazy?
Leave it all behind
Whether you wanna go, just say it
Hearts are racing
You, I'm chasing
This is our chance
We should just runaway
We should just getaway
Talking where we'd go
As long as we're together
Look into the water
See for yourself
We should just runaway
We should just getaway
We should just runaway
We should just getaway
Hearts are racing
You, I'm chasing
This is our chance
We should just runaway
We should just getaway
Talking where we'd go
As long as we're together
Look into the water
See for yourself
We should just runaway
We should just getaway
We should just runaway
We should just getaway
