

# Lifelike

## Mookid

Way down low with the pretty ones  
Floating on beautiful pills  
So lifelike it's becoming real Everything is alright  
Life is but a dream  
Everything is alright  
It's so lifelike Deep inside your secret place  
Cover me like a liquid angel  
This hunger I could never feed  
You are my uncertain danger Everything is alright  
Life is but a dream  
Everything is alright  
It's so lifelike Everything is alright  
Life is but a dream  
Everything is alright  
It's so lifelike Everything is alright  
Life is but a dream  
Everything is alright  
It's so lifelike
