

# Because They're Young

James Darren

Because they're young, because they're young  
The stars are twice as bright above  
Their dreams are new but they'll come true  
Because they're young and in love  
Just like me and you See the happy couples strolling through the park  
Swinging hands as they go by  
We know they feel the way we feel  
And we also know the reason why Because they're young, because they're young  
The stars are twice as bright above  
Their dreams are new but they'll come true  
Because they're young and in love  
Just like me and you See the way they search to find a secret spot  
Now at last they're all alone  
They touch, they kiss and breathe each kiss  
They remind us of the joy we've known Because they're young, because they're young  
The stars are twice as bright above  
Their dreams are new but they'll come true  
Because they're young and in love  
Just like me and you Just like me and you
