

Read My Stars

The Babys

Say you love me, I know you do
Go anywhere I want you to
Yeah, but I love ya
So now, I read my stars Gettin' worried, I face the floor
Hearin' noises outside my door
Think it's friends, can't be sure
So now, I read my stars And now I turn the cards
Is it love? Ohh, I don't know
Is it real? I can't tell
Why the smile? Well, I'm happy Do you know her that well, is it strange?
Well, I don't know, seein' stars all around, yeah
It's a spell, yeah, I think so
Seein' rainbows, well Crystal gaze and visions fade
Make the card the ace of spades
Can't walk the streets, I don't feel safe
So now, I read my stars Say you love me, I know you do
Do anythin' I want you to
Ohh, the things you put me through
So now, I read my stars But where to turn the cards
