

Learn to Fly (Impact)

Bloodlet

She don't know how it feels to flow through life
you see she knows what it is that they want her to be
 she knows what they want her to be
 so she tries religiously to become it
we all look through the same window at life
and see what it is that we each want to see
 we know what we each want to see
 so we try religiously to see it
 I don't want it but it has me
 I don't need it but it loves me
 can't kill it
 this insecurity
and now you've done it too much too late
