

# Dead Flesh Gurl

## Mister Monster

Nothing brings out the death in me  
Like December snow  
No one can make me scream  
Like you could make me scream, my love You loved to see me bleed  
You'd always slip on my blood  
Just kill a little kid or two  
You'll see what I've been going through Each sip of wine that I take  
Is for love that's lost  
Each bottle that I break  
Is for you, the girl I loved the most When you said you'd never leave  
Your fiendish smile grinned  
Now that you're gone again  
It made me look and see that I'm the monster everyone made of me  
I'm the one you held so cold  
How I'd love to see you're alone  
But you're in no ones arms but yours Now when I feel inside of you  
I feel nothing but death  
Dead flesh inside of you  
With ants and worms and maggots on your breasts Take a look inside of me  
There ain't nothing but black  
A black heart and colder lungs  
Prescilla, now you'll see that I'm the monster everyone made of me  
You created something so cold  
And now my Amy thinks she's wrong  
But it's no ones fault but yours This monster's all your fault
