

Desert Lullaby

The Bankesters

how, how did i get here
what world is this
how, how did i get here
what world is this
looking at forever
the ivory bones did speak
i walked the path to nowhere
found there's nothing underfeet
looking at forever
this river's running dry
the desert thirst
has done her worst
she cursed my lullaby
how, how did i get here
what world is this
how, how did i get here
what world is this
the midnight sun burns holes
in the soles of my feet
i kneel before you
i say, please fuck me baby
looking at forever
i cling to every limb
please hold me tight
for the dead of night
prefers my suffering...
how, how did i get here
what world is this
what world is this
what world is this
what world is this
what world is this
the midnight suns burns holes
in the soles of my feet
i kneel down before you
i say, please fuck me baby
please, fuck me baby.
