

Already Know - Interlude

[Mario Winans](#)

I can't believe this man
Maybe I should ask her I already know, I smell the sent in the carpet
I already know, when we walked threw the door
Should have known, should have known
Should have known I already know that you do, baby
I already know tt's all threw, baby
When you walked threw the door
It was late when you did it Oh baby, oh, I should have known it was scannin'
Oh baby, what you do, what you do, what you do
Oh baby, I should have known better
(Should have known better)
Oh, my baby
