

# When We Make Love

[Ginuwine](#)

Your satisfaction I'll guarantee  
Seeing your reaction, girl, that matters to me  
Whatever you want me to do, girl, I'll do  
Let me give you love while we make the sounds that lovers do  
When we make love you go and I'll go  
That's what it sounds like when we make love  
When we make love you go and I'll go  
That's what it sounds like when we make love  
All night you can call me, your moan's like a song to me  
All night I could watch you, your body's so perfect to me  
I want to take you there, nice and slow  
While we make the sound of and know  
When we make love you go and I'll go  
That's what it sounds like when we make love  
When we make love you go and I'll go  
That's what it sounds like when we make love  
The cries and the moans, that language your body knows  
The ooh's and the ahh's means exceptional  
Screaming out loud to ecstasy we go  
This is what it sounds like when we make love  
The cries and the moans, that language your body knows  
The ooh's and the ahh's means exceptional  
Screaming out loud to ecstasy we go  
This is what it sounds like when we make love  
When we make love you go and I'll go  
That's what it sounds like when we make love  
When we make love you go and I'll go  
That's what it sounds like when we make love  
When we make love you go and I'll go  
That's what it sounds like when we make love  
When we make love you go and I'll go  
That's what it sounds like when we make love
