

Valentine

Mr. Little Jeans

I am begging
You got a hold on me
I built a lot of good something
With no air to breathe Listen honey valentine do you
Fill my head with a tainted view
Is it box-ticking confusion
Feel faint but I wear my head high Do it double time
Walk out of line
The neighbors thinking what they do
Steer or collide
Oh what a ride
It's always been just me and you La la la la la la la Gotta get with the bulletproof
Why stick with another Black cat walking through the city
While the clock's noise makes a
Heart commotion
Cut down on the sugar pretty
I say Listen honey valentine do you
Fill my head with a tainted view
Is it box-ticking confusion
Feel faint but I wear my head high
