

Crisis Site 13

Terry Allen

I'm 13 years old, I hate your guts
And I got a zip gun, I got a reefer
I've been screwing since I was 9
And I can make you or break you with charm I steal bubble gum, I steal cigarettes
And I can kill you and never go to jail
Just be circumcised, analyzed, sodomized
By some adult judge that will save me
'Cause I'm young, I'm 13 and I'm cute And it's your fault, society's fault
School's fault, church's fault
Government's fault, folk's fault
And fucking naked girls fault too It's the end of the family
It's the end of the world
