

# Growing Up The Hard Way

## Foreigner

He's got nothing to say, he's got no excuse  
He's just made that way and he's gonna stay that way  
Like a dog on the loose in a firework display, in a world of his own  
No, no, no, he won't back down or go running back home  
He's come a long way in life, he's got a long way to go  
He don't even know, he don't care because  
He's growing up the hard way, in and out of trouble every day  
Growing up the hard way, now there's no tellin' where you'll end up, boy  
But he's got nothing to say, like he's lost for words, his mind's in a daze  
That's his way, it's just a little game he plays  
He's got nowhere to run, while the city sleeps he wanders alone  
Cuttin' through the steel and the hearts of stone  
He's come a long way in life, he's got a long way to go  
He don't even know, he don't care because

He's growing up the hard way, in and out of trouble every day  
Growing up the hard way, you'd better walk the straight and narrow, yeah  
Growing up the hard way, in and out of trouble every day  
Growing up the hard way, never know what you're in for, boy  
He's come a long way in life, he's got a long way to go  
He don't wanna know and he don't care because  
He's growing up the hard way, in and out of trouble every day  
He's growing up the hard way, yeah, and he's gonna stay that way  
You see, he's growing up the hard way  
Walk the straight and narrow, yeah, maybe someday  
But still he's growing up the hard way, it's just the way he's grown up, yeah  
He's growing up the hard way, there ain't no other way  
Growing up the hard way
