

Anyway

Alphaville

Welcome or should I say goodbye
It's a question how close we are apart
Are you going back home after this show
Or leaving for the wild? And when you're passing the wardrobe
What will you take? You worn out hat of hopes
Or someone else's attractive furs to make it through
The playgrounds of your life All is shown, all shut down
All the world is gone
All the pieces came together
Finally but not too late All is shown, all shut down
All the world is gone
Just pretend that I'm not there
Make your choice, I love you anyway
I love you anyway I love you anyway
Just make your choice
Pretend that I'm not there
All the world is gone
All the world is gone Just take it, just take it
And then you'll make it alright, yeah
Ride on, ride on All is shown, all shut down
All the world is gone
All the pieces came together
Finally but not too late All is shown, all shut down
All the world is gone
Just pretend that I'm not there
Make your choice, I love you anyway
I love you, love you anyway
