

# Harry Dean Stanton

## Pop Will Eat Itself

In 1991 I got glassed  
Cousin got murdered, friend got attacked  
And the house next door to ours  
Got ransacked again But seeing is believing, hearing is receiving  
A deaf and blind world that I don't believe in  
Blinded by light, flattened by sound  
Over and out - underground But seeing is believing, hearing is receiving  
A deaf and blind world that I don't believe in  
Blinded by light, flattened by sound  
Over and out - underground Down here, talk to us, we'll hear  
The future is here  
Walk with us from here In 1993, I will be three O years inside this body  
I don't know what's going on outside me But seeing is believing, hearing is receiving  
A deaf and blind world that I don't believe in  
Blinded by light, flattened by sound  
Over and out - underground Down here, talk to us, we'll hear  
The future is here  
Walk with us from here
