In and Out

Out Cold

Someday when this broken heart's behind me
Waiting round the bend I'm going to find me
Some new love to pick me up and guide me
Across the neon nights, up above the city lights

And when he turns to greet me with a warm kiss
I won't taste the bitter trace of your lips
But then I see your face and how my heart skips
And just as long as I keep recalling I keep falling

In and out, in and out of love
In and out, in and out of love
I'm falling deeper down, deeper down boy if I could
I'd run away but my heart belongs to yesterday

Killing time with friends of mine I forget
The endless empty hours that your love left
And for a while I wear a smile but darkness
Sits waiting in the wings but until morning I keep falling

In and out, in and out of love
In and out, in and out of love
I'm falling deeper down, deeper down boy if I could
I'd run away but my heart belongs to yesterday

In and out, in and out of love I'm falling
In and out, in and out of love
I'm falling deeper down, deeper down boy if I could
Ooh I'd run away but my heart belongs to yesterday

In and out, in and out of love
In and out, in and out of love
I'm falling
