

Somethin' Special (beijing Olympic Mix)

Colbie Caillat

I found a way to be everything
I've dreamed of
And I know it's in me
That I will become
Who I want to be
And I finally found it and I'm taking the long way out
'Cause it's going to be, something special to me
Something special to me

Days go by
And I grow stronger
It takes time, but I'll never let go
Days go by and I'll try harder to make it mine, I know...
Something special to me
Something special to me
Something special to me

I've found
So many things
I've dreamed of
And I know it's in me
That I will become
Who I want to be
And I finally found it and I am taking the long way out
'Cause it's gonna to be
Something special to me
Something special to me

Days go by and I grow stronger
It takes time, but I'll never let go
Days go by and I'll try harder to make it mine, I know...
It's something special to me

More than I hoped for
More than I dreamed of
This is how it should be
More than I hoped for
More than I dreamed of
This is how it should be

Days go by and I'll grow stronger
It takes time, but I'll never let go
Days go by and I'll try harder to make it mine, I know

It's something special to me
It's something special to me
It's something special to me
Days go by and I grow stronger
It takes time, but I will never let go
Days go by and I grow stronger
It takes time, but I will never let go
