## Chevelle

Girl had a baby and she gave it to the world  
World didn't want to take the baby from the girl  
Float on the waterway  
Your time never change, your life around again  
You'll fly far away  
Time will never destroy your heart  
Time will never destroy your heart  
So in the reeds beside the river where she lay  
Give it to the river that the world has shoved away  
Float on the waterway  
Your time, it never changed, your life around again  
You'll fly far away  
Time will never destroy your heart  
Time will never destroy your heart  
Float on the waterway  
Your time never changed, your life around again  
You'll fly far away  
Time will never destroy your heart  
Time will never destroy your heart  
Time will never destroy your heart  
Time will never destroy your heart
