Weightless

Waylayers

Now that you see it all this time
I'm losing faith and all was mine
Come on and take these words from me
You wonder why you wanna be a better man, a better man
With nothing more to save the us and
The time was right for us to breathe
Know it wasn't my fault this time.

Not at all is weightless
Not at all as weightless

I found the truth in fiction that I wish I'd taken more
Than just the memory of that moment that you put those words into my mouth

Not at all is weightless
Not at all as weightless

Pick up the pieces as you are
Pick up the pieces as you are now
Pick up the pieces as you are always
I said
Pick up the pieces as you are
Pick up the pieces as you are now
Pick up the pieces as you are always

Not at all is weightless
Not at all as weightless

Now that you see it all this time
I'm losing faith and all was mine
Come on and take these words from me
You wonder why you wanna be
I found the truth in fiction that i wish I've taken more
Than just the memory of that moment that you put those words into my mouth
