

Mercedes Baby

House Of Heroes

Hold loosely to my hand 'cause it's a long long road
And you don't know and I don't know where it goes
Or where it ends and it's a long long road
A long long road, you've gottaGet back on the front page, baby
Take turns driving your Mercedes
Get back, you don't even know if you canGet back on the runway, honey
Do it for love not for money
Get back, you don't even know if you canIt's complicated
It's long and winded
I've been frustrated
But I know you can make itIt's complicated
It's long and winded
I've been frustrated
But I knowGet back on the front page, baby
Take turns driving your Mercedes
Get back, you don't even know if you canGet back on the runway, honey
Do it for love not for money
Get back, you don't even know if you canI sell my passion for a dime
Unto a thousand hungry eyes
I covet kingdoms crumbling
What will we do when the fickle flee?I sell my passion for a dime
Unto a thousand hungry eyes
I covet kingdoms crumbling
What will we do when the fickle flee?Get back on the front page, baby
Take turns driving your Mercedes
Get back, you don't even know if you canGet back on the runway, honey
Do it for love not for money
Get back, you don't even know if you canGet back on the front page, baby
I'm yours if you don't say maybe
Get back, you don't even know if you can
