Outer Space

The Muffs

I'm pathetic now
Want to take a ride with me?
To another place
With my funny faceAnd if you say everything is alright
When you look in my eyes
Do I look away or am I telling lies?
Do you know where I am?
I really want you to
I'm here in outer spaceWelcome to my world now
By myself but I don't care
If you think I'm funny
Talk to me when I'm not thereYou won't get a lot out of me
I really want you to see
That I'm wasting away in a fantasy
Do you know where I am?
I really want you to
I'm here in outer spaceWell, here I go again now
I might as well be dead
Why should I be living
When it's all in my head?
Where should I go? Where?
Maybe baby, I notice it
(Woo)And if you say
