

# Written In Sand

## Ralphtones

Your eyes are the color of the sea  
You look my way and the waves wash over me  
Your body shivers with the fading light  
And you say, baby, lets just make it last tonight  
And when the morning comes  
You take me by the hand  
And say, our love is written in sand  
Written in sand  
We hear the ocean roar  
Were swept away on to some distant shore  
You whisper secrets of the heart  
They keep us close when the world keeps us apart  
Until tomorrow comes  
Time is on our hands  
Because this love is written in sand  
Written in sand  
Nothing lies between a woman and a man  
When their love is written in sand  
When their love is written in sand  
When their love is written in sand  
Written in sand  
Written in sand  
...
