

Train People

[Sophie Hunger](#)

My love, I cannot
Feel my teeth
I cannot feel my feet We're driving forever now
Why did we leave and how? 2x Always hungry
And the whistle blows
And it's blindly running
And everybody knows
It should be stopping
And we should get off
And it will collide but
We're all tied up
Now don't be scared
Of what I say
It won't carry things away Our words echo on the rails
Where all of our days are made 2x Rise your voices
With no hesitation
The metals are motion
Without a trembling
That lights your thoughts
With anticipation
The stations asleep
Without a dream
And while we're
Passing
The towns are
Passing
And while we're
Passing
The homes are
Passing
And while we're
Passing
Time is
Passing
