She

Kevin Martin

She seems so happy
In her hopeless disease
If this weren't my boulevard
I would drown in her seas
Got no cure for yourself
Got no faith just your hell
Got no needs you just want more
Got no needs her disease just devours us all

If you ever want to free yourself
If you ever want to be yourself get out
Itchy trigger finger baby
If you ever want to free yourself
If you ever want to be yourself get out

She seems so lonely
But her smile puts at ease
If she walked by your cell you would surely
Surely be freed
Got no needs you want more
Got no needs her disease just devours us all

If you ever want to free yourself
If you ever want to be yourself get out
Itchy trigger finger baby
If you ever want to free yourself
If you ever want to be yourself get out

Got no needs her disease just devours us all

If you ever want to free yourself
If you ever want to be yourself get out
Itchy trigger finger baby
If you ever want to free yourself
If you ever want to be yourself get out
Itchy trigger finger baby
If you ever want to free yourself
If you ever want to be yourself get out
Itchy trigger finger baby
If you ever want to free yourself

If you ever want to be yourself get out
Itchy trigger finger baby
