

Better Living Through Chemistry

Queens of the Stone Age

The blue pill opens your eyes
Is there a better way?
A new religion prescribed
To those without the faith A hero holding a knife
And blood is not enough
Is it too late to go back?
Is it too late to go? There's no one here
(There's no one here)
And people everywhere
(People everywhere)
You're on your own Let's see if I'm hearing this right
Is it just that I should take?
The never-ending supply
To carry out the dead Your idols burn in the fire
The mob comes crawling up
And I'm reclaiming my mind
Destroying everyone There's no one here
(There's no one here)
And people everywhere
(People everywhere)
You're all alone
