The World We Live In

Cleopatra

If we could make this world a better place
Do you think we would be like this
If we would care enough to make a change
You know we'd live in love and blissSometimes when we really care for someone
That's how we should care for the world
How we should care for the world
Without the world we would have no future
Not even man, woman, boy or girlListen to just what we have to say
Just listen, just listen
Look at the world we live in today
The world we live in
The world we live todayAs time goes by we only disagree
With all the pain and loneliness
No one likes either war or misery
So we would have to do our bestSometimes when we really care for someone
That's how we should care for the world
How we should care for the world
Without the world we would have no future
Not even man, woman, boy or girlBaby just listen to just what we have to say
Just listen, just listen, just listen, just listen
Look at the world we live in today
The world we live,
The world we live today, yeahJust listenSometimes when we really care for someone
That's how we should care for the world
Without the world we would have no future
Not even man, woman, boy or girl, girlListen to just what we have to say
Just listen, just listen, just listen
Look at the world we live in today
The world we live in
The world we live todayJust listen, listen, listen baby
Whoa oh yeah
Just listen, look at
The world we live in today
The world we live todayI'm asking you to just listen
Just listen, ooh
No baby, no, no baby, no
Listen, whoa oh, yeah
