

Wild Romantic Blues

Nellie McKay

I feel so melancholy
since cutie went away
I know it's folly
that makes me feel this way
oh I feel like Romeo
once fell for Juliet
I've got that brand of lovin' that you never will forget oh I've got those wild romantic blues
I want someone to take me
right in his arms and make me oh I've got those drive-me-frantic blues
I wanna little courtin' darlin'
oh sweetie oh cutie
I want that wicked lovin' oh I wanna shiver inside before your charms
oh I wanna quiver and die right in your arms
oh love me anywhere you can do because I got those frantic wild romantic blues oh I've got those wild romantic blues
I want someone to take me
right in his arms and make me oh oh
oh I've got those drive-me-frantic blues
I wanna little courtin' darlin'
oh sweetie oh cutie
I want that wicked lovin' oh I wanna shiver inside before your charms
oh I wanna quiver and die right in your arms
oh love me anywhere you can do because I got those frantic wild romantic blues
