

Renee Remains The Same

Material Issue

Where is she goin' out tonight?
Is she wearin' your shirt, is she driving your car?
She was the one who was most likely to but she never got through And she never got far and if we look at her
yearbook picture
I'm sure we'll see a face that looks a lot like now
She always wanted to be accepted, she was only rejected, anyhow And Renee remains the same
Renee, she'll never change
She's the same Well, is she leavin' the house tonight?
Is she carrying your keys as she waves goodbye?
He was the one who was most likely to but he never got her through And they barely made it by but if we look at
her family picture
I'm sure we'll see a face that looks a lot like now
I always wanted to get her attention, I only got rejection, anyhow Renee remains the same
Renee, she'll never change
She's the same Is she takin' your house tonight?
Is she lookin' through your eyes as she says goodbye?
You were the one that was gonna make her happy You only made her cry but if you look at her yearbook picture
I'm sure we'll see a face that looks a lot like now
I only wanted to get her affection, I only got rejection, anyhow Renee remains the same
Renee, she'll never change
She's the same, she's the same
