# Vendetta

## Throwdown

This is our vendetta!Long road, We've treaded on since day one.
Hard times, We swore we would overcome.
Without this where the hell would we be? Dead inside!
Enemies - You can't kill what will not dieThis is war
This is pure hostility
This is vengance
This is all that's driving meThis is our vendetta!Dead world, We're "out of step" with liars' times
Enemies - We swore we would fight the line
This is all that drives us to survive... The life we breathe
Power, Strength of the world inside of me.This is war
This is pure hostility
This is vengance
This is all that's driving meThis is our vendetta against the world
