

Vendetta

Throwdown

This is our vendetta! Long road, We've treaded on since day one.

Hard times, We swore we would overcome.

Without this where the hell would we be? Dead inside!

Enemies - You can't kill what will not die This is war

This is pure hostility

This is vengeance

This is all that's driving me This is our vendetta! Dead world, We're "out of step" with liars' times

Enemies - We swore we would fight the line

This is all that drives us to survive... The life we breathe

Power, Strength of the world inside of me. This is war

This is pure hostility

This is vengeance

This is all that's driving me This is our vendetta against the world
