Life At Best

Eli Young Band

Baby who do you think is better than you
Do you know eveything they go through
Have they taken you on their closet tour
You'll find a few skeletons I'm sure
You think everyone's kicking up their feet
When you're sold the life of easy street
You gotta make it there and then maintain
Improve your lifestyleand it's the same thing

Chorus:
Life at best is a struggle
Life at best can be trouble
Store up on love, stay humble
It's all a guess, baby life at best

There's a shortcut for everything these days
Don't fall for the TV or some magazine page
No much gets solved with a pill in one take
What you work hard for is the thing that pays
You gotta make it there and then maintain
Improve your lifestyle and it's the same thing
Repeat Chorus
Life at best is anybody's guess
Life at best is anybody's guess
Life at best is anybody's guess
Life at best.
Repeat Chorus
