Alice

Siskin River

Alice "Siskin River"
You you came along
I thought you were funny
You made my world sunny
You know you did
Now now that all's said and done
I guess that it wasn't that fun
I wasn't that wonderful
Go on be with Alice
Go to wonderland
You'd be mad as a hatter to stay with me cuz I'm
I'm just the rabbit
Who dug the dirt for her
Running for ever late the ticker in my hand

Ravins like a writing desk as I am like a rabbit
It's late it's late it's far to late I wish I bought this habit
It makes not sense it doesn't help to throw your lodgic at it
This riddles not a riddle if you're answers always Alice
In the atic there's a key hole
Through the key hole there's a garden
You live there with your queen of hart's
And all the doors are bard in
I watch on in my idomalice
Stairing down your paper palace hoping all your cards come crashing down

You, you hit it well
You swam in a puddle with me
But you harbourd wide ocean dreams
Now your sailing over the sea
You took all the oysters from me
So you are the walrus it seems
Goo goo Kacho
Go on be with Alice
Go to wonderland You'd be mad as a hatter to stay with me cuz I'm I'm just the rabbit Who dug the dirt for her
Running for ever late the ticker in my hand
As twiddle de and tweddle dum agree to have a battle
You agree you would run and I'd be left to paddle
To the sore line to the carcass race

In ciruclе I'll be spinning
To dry away this lake of tears but never ever winning
As I drown here in my sorrow you bask there in your eyelids
Your world is such a pearl even your cat he wears a smile and
I flow on in my beggers wisdom
Stairing down your awesome Kingdom
Willing all those greens to torture trounce
And i watch on in my idomalice
Wishing I was more like Alice
And hoping all your cards come crashing down.
